

## PRO LIGHTNING

High performance  
airstyler

▲ BAB2650E

Gives you the power you need to both finalize the hair drying after having first blow dried it with a hair dryer and then style the hair while respecting it.

### Power

700 W power for long-lasting styling results achieved in no time at all.

### 34 mm size

The PRO Lightning is the perfect choice for being used on shoulder-length to long hair.

### Versatility

It gives straight hair some wave and gives texture to any kind of hair. Its soft bristles tips allow to lift roots and give more volume till hair ends without compromising the integrity of the scalp.

With 2 heat & speed settings, it can be used on any type of hair.

### Ease of use

The PRO Lightning softly and effortlessly slides on the hair strands and creates texture, volume, loose curls and waves.
